ABOUT COMPANY

At Easy Security Services & Guards (ESS&G), we've built a 20-year legacy of protecting what matters most. Founded on trust, excellence, and innovation, we consistently exceed client expectations. ***We deliver custom and intergrated security solutions that are proactive and reliable. Our team ensures peace of mind***

across commercial, retail, industrial and residential estates through vigilance and cutting-edge technology. We lead industry change by continuously improving our systems, training, and tools. Our philosophy: make our services obsolete before anyone else does. This keeps us ahead—and trusted. As part of our commitment to giving back, we proudly adopt a corporate citizenship model—investing in community upliftment, supporting local development, and empowering those around us.

MISSION & VISION

MISSION

We strive to lead and deliver quality service solutions through safe, innovation and sustainable practices using our expertise in the security industry. We strive to conduct and maintain our business transactions with the highest levels of integrity, honesty, competitiveness and fairness focusing on our customer's needs and continuously improving our process and services.

VISION

To become a prominent multi-services company in South Africa, continuously strive to exceed our clients' expectations. Be it in terms of proving competitiveness, lead time or deliver, quality of products is achieved through a culture of safety & empowerment.

> *We are really proud of our training initiative as it proves that the private sector can make a valuable contribution working with the public sector.*

HISTORY

Special Events

Event Management, where crowd control is problematic and could have an extremely negative effect on a company's image and bottom-line. As an extension of public order policing, ESS&G provides a turnkey service, including Access Control, General Crowd Control, Safety and Security for performers, players, VIPs & attendees, crisis management and Emergency exit Control. The strategy deployed ensures the level of response does not surpass the level of danger. In other words, situations are diffused before being allowed to reach a level where physical safety is compromised.

Training School

We provide comprehensive in-house training solutions for employees and clients. We offer a range of courses that are facilitated by experienced staff.

Social Responsibility

Easy Security Services & Guards believes in giving back to the community as they did at the Harley Davidson's Club. Social Responsibility is also about being heard and felt, as it is about being seen and ESS&G is proud to be supporting a community club and Sebokeng Soccer Team. ESS&G is proud to support ever-growing community projects and events as we protect, serve and uplift the communities in which we operate. The company is giving skills to learners that will take them out of that group and offer them the chance to better their lives whether it be in the job market or at tertiary education level.

OUR SERVICES

Easy Security Services & Guards has evolved its service provision to render the following quality security services:

- *Guarding (Armed & Unarmed).*
- *CCTV & Off-site Monitoring*
- *VIP Protection & Escorts*
- *Fencing (Perimeter Fencing, Gate Automation, Alarm Installation*
- *Access Control Systems (Biometric)*
- *Investigations*
- *Risk Assessments*
- *Occupational health and safety*

ADDITIONAL SERVICES

Investigations

ESS&G's investigators are specialists in the field of intelligence gathering, involving anything from providing financial and background profiles to physical observation of suspects

Off-site Monitoring

Technology today is the direction to go due to crime which in most cases goes undetected because of human era. The world has evolved and technology has become the master of evolution

We work closely with SAPS

CLIENTS &. AFFILIATES

Our partnership and association with GrowthPoint Properties has been of tremendous benefit to ESS&G. This has resulted in significant improvements in the following areas

- *Compliance with Occupational Health Safety and Environmental issues*
- *Quality site inspections and management*
- *Guard site orientation and professionalism.*
- *Competitive pricing*
- *Skills resources*
- *Designing and adoption of a world class uniform*
- *Overall improvement of the company image amongst its competitors*

All our staff hold Graded PSiRA Certificates ranging from Grade C to A and have qualified instructors to monitor their performance.
